SOME ADDITIONAL EVIDENCE.

No Further Light on the Manner of James Hyland's Taking Off. The inquest in the James Hyland case was

continued yesterday afternoon. Dr. Mason testified that he had been called to the Hyland residence to attend to a sick child. Hyland accompanied Dr. Mason on his return as far as the drug store at the corner of Forty-first and Hamilton streets. While still with the doctor Hyland took a bettle of whisky from his pocket and drank some, then offered the bottle to Dr. Mason,

At the drug store both the doctor and Hyland took a drink of whisky and ginger to warm them up. The deceased re-mained at the drug store until the prescription for his child was ready and

then prescription for first and was ready and then left for home, this was about 6 p. m. At 9 o'clock Hyland was a corpse.

The next witness was Kurtz Hahn, the druggist, at Forty-first and Hamilton streets. Hahn merely corroborated the statements of the doctor, and was positive that the drink taken at the drug store was whisky and ginger.

ginger.
This ended the testimony for the day. The inquest was postponed until Saturday at 11 a. m. in order to allow Prof. Miller of the Omana medical college to finish his analysis of the stomach of Hyland.

Another of Morehouse's Piano Performances Come , to Light. Another of the peculiar transactions of (

K. Morehouse came to light yesterday. Morehouse took one of the pianes of the Chickering consignment to his bome. He afterwards mortgaged it to C. E. DeRoberts for \$135. When Morehouse was arrested De Roberts obtained possession of the plane and had it taken to a storage house on Dodge street, between Fifteenth and Sixteenth. C. E. Morrell, who is holding the largest sack of all the Morehouse creditors, learned the whereabouts of the instrument and endesvored to replevin it. DeRoberts learning of this intention on the part of Morrell.

spirited the plano away. So once more Morrell got the worst of a deal, Morehouse had a preliminary hearing in police court yesterday and was bound over to the district court in the sum of \$400. The prisoner was taken to the county jail much to the relief of the city jail officials, who claimed that Morehouse made them more trouble than any ten ordinary prisoners.

Rhea's appearance at Boyd's opera house next week as Josephine will attract much at-tention from the thoughtful. Her success in this play in Omaha last season and the fine impression it left with our theater goers is not forgotten, and the advent of the play will no doubt set people reading on the subject of French history, as it does wherever Rhea appears. Those who attend will certainly have clear ideas of the personality of the principal historical characters of the time of the first empress than they have had by witnessing this grand performance, which is a magnificent page of French history, well interpreted by a splendid company.

One of the finest engagements of the season One of the finest engagements of the season at Boyd's will open this evening when Mr. Stuart Robson and his splendid company will present his new social comedy, "Is Marriage a Failure." This comedy was written for Mr. Robson by Messrs. Archibald D. Gordon and Ad Corbett. Mr. Robson takes the part of an eccentric stock broker by the name of Horace Keni, and his acting in the character is said to be count to anything the farmer. Horace Kent, and his acting in the cutain is said to be equal to anything the famous comedian has yet accomplished. FOUR NEW ERMINE WEARERS.

Governor Boyd Respects the Recommendation of the Bar Association.

SKETCHES OF THE NEWLY APPOINTED.

Plans for Division of the Judicial Duties-The Question of Providing the Needed Court Rooms.

The four attorneys selected at last Saturday's bar meeting and recommended as suitabie persons to sit upon the judicial bench of this district are happy men today.

A telegram was received last night, aunouncing the fact that Governor Boyd had carried out the wishesof the bar association and had appointed the parties selected.

Yesterday the official intelligence was received that Frank Irvine, Herbert J. Davis, Arthur N. Forcuson and Lee Estelle have been clothed with judicial ermine, and that as soon as they qualify will be prepared to administer judicial justice.

The new appointers are well known in Omaha and the district, as most of them have been residents of the city for a number of coars.

years.

Frank Irvine, a nephew of the late Chief Justice Miller, is a democrat. He was born in Shannon, Pa, in September, 1858, where he received his early education. He graduated from Cornell college in 1880, and attended the National law school at Washington, D. C., graduating from that institution is 1881, and for one year was a doubt within

ton, D. C., graduating from that institution in 1883, and for one year was a deputy under United States District Attorney Corkhill of the District of Columbia. In 1884 Mr. Irvine removed to Omaha, and since that has been actively engaged in the practice of law.

Herbert J. Davis, the youngest man on the beach, was born at Clarksville, Butler county, Ia., March, 1856. He attended the public schools of his town and in 1883 graduated from the St. Louis law school, carrying off second honors in a class of thirty-six students. In the fall of that year he removed to Omaha, During 1883 he formed a partnership with the late Judge Savage. The same year ho was elected a member of the board of education, and later filled the chair of lecturer of medical jurisprudence in the

board of education, and later filled the chair of lecturer of medical jurisprudence in the Omaha medical college. In 1889 Mr. Davis was appointed judge of this district to fill the vacancy caused by the resignation of Judge Groff. This position he filled until the election of Judge Clarkson took place the following fall. Mr. Davis is a republican.

Lee S. Estelle, the son of a Methodist musister, was born at Hamilton, O., Christmas day, 1847. As a boy he attended the public schools at the places where his father was stationed, with several months of training at the Kingston academy. In 1869, when only lifteen years of age he enlisted in the First heavy artillery, Ohio volunteers. He did not serve long, for his father secured his discharge on a writ of habeas corpus. Later he received his father's consent, re-enlisted and served. his father's consent, re-enlisted and served in the Mississippi squadron until the close of the war. Returning home he went to Ross county, where he studied law. After being admitted to the bar he removed to lowa, where he remained until 1871, when he settled at Red Cloud, this state. In 1874 he accepted a position in the railway mail service and moved to Omaha. In 1882 he formed a partnership with Mr. Osborne of formed a partnership with Ar. Osoorne of the solution of the s one thousand ahead of his ticket in Douglas

county.

Atthur N. Ferguson was born in Albany,
N. Y., October, 1842, and when four years old
removed with his parents to Michigan, where
he resided until 1854, when his parents removed to this state, settling at Believue. Here Mr. Ferguson received his early educa-tion, after which be returned to New York and graduated at the Kinderhook academy. He then removed to Alexandria, Va., where he attended college. In 1870 he completed the law course at the lowa university and returned to Bellevue, where he opened an office, removing to Omaha in the fall of 1872. In 1877 Mr. Ferguson was a member of the the state senate, representing Sixth senatorial district, then

comprising Douglas, Sarpy and Burt counties. The following fall he was elected district attorney, and served for two years, while Judge Savage was on the beach. From 1881 to 1883 he was a member of the board of education. Mr. Ferguson is a democrat. When the new judges will begin work and how they will divide the dockets is a matter

that will receive early consideration.

Judge Clarkson has resigned, his resignation to take effect as soon as the new judges qualify, but when this will be none of the new members seem to know. He is now holding court in Washington county, and it seems to be the universal desire that he shall finish the term, though if he will not, it is probable that Judge Irvine will qualify at once and proceed to Biair, where he will re-

lieve Clarkson.

No meeting of the judges has as yet been arranged to divide up the work that remains to be completed this term, and some of the to be completed this term, and some of the new appointees rather favor letting Judges Doane, Hopewell and Wakeley complete the February term rather than to make a new allotment of the cases that are noticed for

In all probability the old judges will be given the choice of work and as there will be two to look after the equity docket, Judges Wakeley and Doane are booked for these positions, it being understood that they prefer this work.

prefer this work.

Judge Hopewell will undoubtedly look after one of the law dockets, while one of the new members, probably Judge Estelle, will have charge of criminal business. The attorneys are well pleased with the outlook and now hope to catch up with the business, which is terribly behind, as on the equity docket there are now 863 cases noticed for trial at this term. The law dockets are almost as far behind, as before Judge Hope-well there are 430 cases noticed for trial and before Judge Doane, 429. Where the new judges will sit is another

Taken in time, even Consumption yields to the wonderful effects of Dr. Pierce's Golden Medical Discovery. It won't make new lungs-but it will make diseased ones healthy when nothing else will. There's reason for it, too. Consumption is Lung-scrofula. For every form of scrofula, and all blood-taints, the "Discovery" is a positive cure. It's the most potent strength-restorer, blood - cleanser, and flesh - builder known to medical science. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, Catarrh, and all lingering Coughs, it's an unequaled remedy. It's a guaranteed one. If it doesn't benefit or cure, you have your money back. estion and a serious one, as at the present me all the rooms in the court house are oc-upied, with Judge Wakeley holding court in

The Bre building.

The question of securing new quarters will be attended to by the county commissioners, though the judges will be consulted in the matter. Some of the commissioners want to clean out the basement of the court house and put one of the equity courts in the room occupied by the superintendent of plumbing, while a proposition to use the small room back of the large court room for an equity court has been discussed. Another proposi-tion is to rent rooms outside for the three new courts. This matter will probably be set-tled at the next meeting of the county com-

nissioners. The increase of help around the new courts is another matter that will come up for consideration. There are now three additional stenographers and three additional balliffs to be appointed and this in itself, is making no little stir among the par-ties who are anxious to serve the county.

At the next term of court the number of jurors will be doubled, and instead of the commissioners drawing thirty-six names, they will draw seventy-two, which will necessitate the revision of the jury list.

Judge Helsley's Decision 'ffecting the Police Board's Powers.

Judge Helsley yesterday rendered a de cision in the case of state vs Louis H. Hibbler, which has been pending since last June. The defendant was charged with sell-The defendant was charged with selling liquor without a license, but the real point in controversy was as to the powers and privileges of the board of fire and police commissioners.

Hibbler had a saloon at the corner of Fortieth and Leavenworth and was granted a license by the board for the year 1800. It so happened that February 23, 1800, was Surday and Hibbler fractured the Slocumb law by selling liquor on that day.

The case was reported to the board of fire and police commissioners and after hearing the evidence they revoked his license and ordered the place closed. Hibbler, however, did not obey the mandate, but on the contrary, continued to supply the thirsty as before. Then his arrest was caused for selling liquor without a license.

The joint raised by the defense was that the fire and police commission, sitting as a license board, had not the power to revoke his ilcense under the circumstances. In sup-

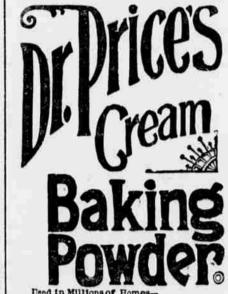

his license under the circumstances. In sup-port of this position he cited from the statutes the passage giving to the board the right to revoke a license "upon due proof of conviction" of the defendant of any violation of the Slocumb law. It was argued that the defendant had not been convicted; that the case had never been before any court and therefore there could not have been any conviction. The position was taken that the license board could not resolve itself into a court to pass upon the guilt or innocence of a saloon keeper, and it was asked that the defendant be discharged.

The court held that the ground taken by the defense was tenable and that the license board had exceeded its authority in revoking the license.
